

Paper / Printing Industry Short List

CHEMIST / LAB TECHNICIAN (DR254289O) BSChE, minor in Chemistry, University Of Akron, 3.417/4.0 GPA. Qualified chemist with **2 years experience** in research and development with coatings. Experience includes **coating paper** to test tear strength, porosity, stiffness, saturation, and flame retardency, formulation of carpet backing compounds for strength testing, formulation of coatings for polymer films to receive ink and test wash-ability and measuring fracturing toughness of graphene reinforced nanocomposites. **1 patent in progress**. Salary: \$45,000/year

PROCESS / APPLICATIONS ENGINEER (BB257000E) BS Paper Science Engineering, Miami University, 3.0/4.0 GPA. Well qualified engineer with over **14 years experience** working with **paper industry** products and systems. Experience includes systems calculations, sizing components, compatibility analysis, hydraulic pumping systems, troubleshooting / repair, process engineering, technical support and project management. Responsible for detailing product offerings and quotes working with both OEM's and on heavy industrial capital projects, Proficient in AutoCAD. Salary: \$60,000/year

R&D / PROCESS ENGINEER (DF255898F) BSChE, University of Akron. 3.2/4.0 GPA. Innovative engineer with **4 years experience** involving R&D for materials, products and processes for high profile projects from conception / prototypes, testing / qualification / quality control to large scale production. Experienced working with plastics / resins, ceramic and powdered metal materials and processes. Processes include mixing / blending, molding, extrusion and **printing operations** as well as working with kilns and furnaces. Deals with international customers and suppliers. Salary: \$65,000/year

AUTOMATION ENGINEER (GJ256931E) MSEE, 3.5/4.0 GPA. Highly skilled engineer with **12 years experience** designing and commissioning industrial automation systems. Experience includes PLC/HMI programming, DCS's, VFD's, AC/DC motors, soft-starters, analog/digital sensors, transmitters, hydraulic/pneumatic circuits, motor control centers, microcontroller programming and cost estimation in the **paper / processing** industry. Experienced with Siemens, Emerson and Delta hardware. Proficient in AutoCAD Electrical, SIMATIC STEP7/WinCC, TIA, Visual Field and MS Office. Salary: \$70,000/year

PROCESS / CONTINUOUS IMPROVEMENT ENGINEER (DR254892A) BS Paper Science Engineering, MBA. **Six Sigma Black Belt**. Results-oriented engineer with **14 years experience** in manufacturing / process operations. Responsible for the leadership of Kaizen events, oversight of capital budgets, supervising equipment installations and safety program development in the **paper processing industry**. Experience includes implementing **coating** changes, quality certification and material cost reductions. Proficient with AutoCAD and MS Office. Salary: \$75,000/year

PLANT / OPERATIONS MANAGER / DIRECTOR (DF257163O) MBA Information Systems / Enterprise Resource Mgmt. **Lean / Six Sigma Certified**. Highly qualified P&L executive with over **20 years experience** implementing lean / six sigma continuous improvement methods to achieve operational excellence objectives in ISO 9000 cGMP manufacturing / process plant operations in the **print and graphics** industry. Has mastery of silkscreen, letterpress, sheet feed and web offset, gravure and flexographic printing on a variety of substrates. White Belt, 5S Certified PHRP, Salary: \$80,000/year

PRODUCTION / OPERATIONS MANAGER (DR256443S) BSBA. Highly qualified CI professional with **20 years experience** including world class high-volume, fast paced ISO 9001 / 14001 environments. Responsible for implementing Lean / Six Sigma / 5S concepts, Toyota Production Systems, Kaizen, 5 Why to reduce costs and improve quality. Experience includes new product launches, materials, quality, maintenance and safety in **die cutting, rewinding / slitting, digital printing, laminating and extrusion processes**. Proficient with MS Office, SAP and AS400. Salary: \$80,000/year

PLANT MANAGER (JB253808J) BS/MS. **Lean Certified**. Well qualified professional with over **15 years experience** leading manufacturing operations involving chemical processing, **printing and finishing processes**. Experience includes implementation of Lean methods and inventory reduction initiatives to increase stability and profitability. Responsible for management, scheduling and coordination of all manufacturing, employee training and development, safety and quality. Proficient with MRP and Microsoft Office. Salary: \$115,000/year

OPERATIONS / DISTRIBUTION MANAGER (DR255757O) MBA, Baldwin Wallace University. Highly qualified distribution executive with over **20 years experience** in large scale **printing / publishing** organizations. Implemented lean / six sigma methods for strategic planning, production management, materials planning, operations management, engineering, preventative maintenance and quality control. Experience includes all aspects of distribution, sales / marketing, facilities expansion and capital equipment purchasing. Proficient with MS Office and Distribution software. Salary: \$115,000/year

DIRECTOR of OPERATIONS (JB254789O) MBA, KSU, 3.9/4.0 GPA. Highly qualified director of operations with **20 years experience** in **printing and paper industry** operations. Offers strong experience in continuous improvement and project management as well as corporate-level **tactical and strategic planning**. Responsible for maintaining full management and **P&L** responsibilities for operations of up to 300 direct and indirect reports, developing and monitoring COGS budgets, **implementing Lean Manufacturing** concepts and restructuring leadership teams. Salary: \$130,000/year
